Tequipment 911

Accessories for the new 911 model range

carmanualsonline.info

All muscle.
And Porsche genes in every fibre of their being.

Thinking laterally and breaking boundaries. Never standing still and never making do. Continually striving to improve every last detail and always highly motivated. These are characteristics that distinguish not only you, but also the Porsche development team in Weissach. Whether it's the designer or the engineer, each member of the team is committed to getting the best out of absolutely everything. The results are cars beyond compare. Nevertheless, all Porsche

models leave scope for further personalisation. Thanks to the model-specific products available from Porsche Tequipment, you can refine your car to your unique taste after you have taken delivery. All Porsche Tequipment products are designed with the complete vehicle in mind and by the same Porsche engineers and designers who also develop the vehicles themselves.

As with the cars we create, all our accessories undergo rigorous testing during their development. From design through to approval, we thoroughly scrutinise important properties, from safety to performance and from fitness for purpose to durability. After all, they are more than just accessories, they are part of a harmonious overall concept – your Porsche.

The same applies to one of the highlights in our range: the Aerokit Cup. This styling option comprises a new front apron with a refined front spoiler and modified spoiler lip, as well as a new rear spoiler with fixed-wing profile. What makes this package even more special? The Aerokit Cup can be retrofitted even if your vehicle came ready equipped with a SportDesign front apron or SportDesign package.

This is because their modular design enables them to be seamlessly combined.

Whether you wish to enhance its performance, refine its style or add comfort features, it is never too late to give your Porsche an extra personal touch.

Whichever Tequipment products you ask your Porsche Centre to fit, your Porsche

will always be the masterpiece that the developers in Weissach envisaged it to be.

For peace of mind, you can rest assured that your original warranty will not be affected.

For more information about Porsche Tequipment, please contact your Porsche Centre or visit www.porsche.com.

Exterior 6

Express your sporty inner attitude and accentuate the toned physique of your 911. The Aerokit Cup, sports exhaust system and wheel options are just a few of the products available from Porsche Tequipment.

Interior 22

Inner values matter. Whether your emphasis is on performance, style or classic appeal, we can turn your ideas into reality and your 911 will always be 100% Porsche.

Audio and communication 32

A Porsche without intelligent communication systems? Unimaginable.

Transport and car care 38

Your Porsche can carry much more than the motorsport enthusiast inside it. We offer a range of transport accessories and cater for your car-care needs.

Panorama 48

A brief insight into the world of Porsche.

Contents

There's nothing over-elaborate or fanciful about our accessories. They integrate with the vehicle to form a harmonious whole.

1963 saw the first ever 911. Styled the way we envisaged.

Today sees the latest 911. Styled the way we – and you – envisaged. A fully personalised 911 can be your dream come true.

With the Porsche Tequipment range of accessories, you can make your 911 even more distinctive. Whether you opt for the Aerokit Cup, sports exhaust system, sports tailpipes or new wheels, the decision is entirely yours. The following pages will show you everything that's possible.

All accessories available from Porsche Tequipment were developed in parallel with the 911 itself. How else could we have achieved such a harmonious combination?

Exterior

It's nice when you can keep dreaming the dream.

[1] SportDesign front apron
Components have been purposefully refined in the Porsche wind tunnel to reduce lift. The newly styled front apron with distinctive spoiler lip creates an uncompromisingly sporty appearance.

If your vehicle is already equipped with the SportDesign front apron, there is still scope for further enhancement with the Aerokit Cup available from Porsche Equipment. Only for 911 Carrera Coupé models.

Note: reduces ground clearance.

[2] SportDesign package
The SportDesign package includes not only the SportDesign front apron with distinctive spoiler lip, but also a rear spoiler that emphasises the ultra-sporty look of the new 911 model range and helps to reduce lift.

If your vehicle is already equipped with the SportDesign package, there is still scope for further enhancement with the Aerokit Cup available from Porsche Equipment. Only for 911 Carrera Coupé models.

Note: reduces ground clearance. To preserve aerodynamic stability, front and rear spoilers may not be fitted separately.

[1] Aerokit Cap

This package comprises the SportDesign package (SportDesign front apron and rear spoiler) as well as a modified front spoiler lip and a fixed-wing profile on the rear spoiler. Tested and refined in the Porsche wind tunnel, the components

increase downforce on both axes and improve handling. They also emphasise the 911's sporting heritage.

If your vehicle is already equipped with the SportDesign front apron or SportDesign package, there is still scope

for further enhancement with the Aerokit Cap available from Porsche Tequipment. Only for 911 Carrera Coupé models.

Note: reduces ground clearance. To preserve aerodynamic stability, front and rear spoilers may not be fitted separately. Only for 911 Carrera Coupé models.

[2] Sports exhaust system

The typical Porsche sound – powerful, robust and sporty. Better still, it can be further enhanced thanks to the sports exhaust system, featuring a modified silencer and specially designed twin dual-tube tailpipes. The sound varies with driving behaviour, ranging from a

robust output during normal road driving to a distinctively more aggressive tone during performance use. The specially designed tailpipes are included as standard.

Some models may require additional components. (Please see fitting and conversion instructions.)

[3] Sports tailpipes

Specially designed twin tailpipes in chrome-plated stainless steel. Give a sporty look to the rear of your 911.

Porsche has kept its feet on the ground since 1948.

Although there are many units of measurement, sometimes the inch is the most indicative. The wheels from Porsche Tequipment make an impression by combining aesthetics, dynamic performance and safety. Styled and tested without compromise for a result beyond compare, they are the perfect complement to your 911.

(1) 20-inch SportDesign wheels with summer tyres
Set of one-piece alloy wheels with motorsport-derived multi-spoke design and optimised for low weight thanks to flow-forming technology.

(2) 20-inch SportTechs wheels with summer tyres
Set of one-piece alloy wheels optimised for low weight thanks to flow-forming technology. Centre spokes with GT Silver Metallic paint finish and front surfaces with high-gloss polished finish.

(3) 20-inch Carrera S wheels with summer tyres
Set of alloy wheels with an elegant dual five-spoke design. Dynamic and powerful – just like your Porsche.

(4) 20-inch Carrera S wheels in satin platinum with summer tyres
Your Porsche delivers excellent dynamic performance, and so do these wheels. The 20-inch Carrera S wheels with summer tyres and a paint finish in satin platinum emphasise the sporty character of your car and give it even more individuality. Includes wheel centres with full-colour Porsche Crest.

[5] 20-inch Carrera S wheels painted in black (high-gloss) with summer tyres. A high-gloss black painted finish on the rims creates an imposing look and makes the overall appearance of the 20-inch Carrera S wheels even more powerful. Includes wheel centres with full-colour Porsche Crest.

[6] 20-inch Carrera Classic wheels with summer tyres. Sporty alloy wheels with 10-spoke two-tone design. Titanium-coloured paint finish with high-gloss polished front surfaces. The intricate spokes provide a clear view of the Porsche brake system.

[7] 20-inch Carrera S wheels with winter tyres. The five closed-end, dual-arm spokes of these wheels will accentuate the ultra-sporty appearance of your 911, while the winter tyres offer improved traction in cold weather.

[8] 19-inch Carrera wheels with winter tyres. This wheel and tyre set featuring five-spoke 19-inch Carrera wheels and winter tyres is as instantly appealing as your Porsche. The wheels impress with their functional design and sporting elegance, while the winter tyres offer improved traction in cold weather.

Note on the use of winter tyres
Summer tyres provide optimum performance at ambient temperatures above +7 °C. Below this point, the tyre

compound begins to harden and braking distances are increased. We therefore recommend that you fit winter tyres during the colder months of the year so that you

can drive your 911 safe in the knowledge that it will continue to meet our high standards for driving safety even at low temperatures. All winter tyres approved

by Porsche are identifiable by the 'M' designation on the sidewall. The crucial advantage of winter tyres is that they reduce braking distances at low temperatures below 3 °C.

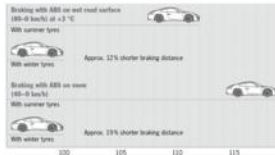

Wheel/tyre set	911 Carrera 911 Carrera Cabriolet		Wheel dimensions (offset (ET) in mm)	Tyre specifications
	911 Carrera S 911 Carrera S Cabriolet

[1] Some chassis

Specially designed for Porsche models and featuring ultra-fine links for minimal adhesion of ice and snow. Set of two for rear axle.

Not compatible with wheel spacers.

How tyres influence braking performance:

Example
Braking distance in % measured with the use of tyres conforming to the Porsche specifications.
Braking distances optimised by the use of Porsche winter tyres. Absolute values may vary.

- Compatible
- Not compatible
- Optional use of 5 mm spacers on front and rear axles to widen track
- Winter tyres up to max. 240 km/h (149 mph)
- Not compatible with 5 mm wheel spacers (SRP)
- Compatible with some chassis if no spacers fitted
- Not compatible with some chassis - for winter tyres only

* The wheel centres shown are not included, except in the case of the 20-inch Carrera S wheels in cable platform or track (high gloss). If your vehicle documents do not contain details of the correct wheel and tyre combination, please request a technical approval certificate from your Porsche Centre. All tyres are designed exclusively for Porsche as indicated by the special Porsche designation (PNC, NL, etc.) on the sidewall. Tyres that do not carry this designation are not recommended for use on your Porsche.
