Tequipment Cayman

Accessories for the new Cayman model range

carmanualsonline.info

Dreams and reality.
Sometimes they're one and the same thing.

Imagine a car whose exceptional performance is matched by exceptional design. A car with taut proportions and a smooth silhouette. With defined lines and edges, a long wheelbase and a wide track. That car is the Cayman. Built to resolutely master one particular code: the code of the curve. For anything that so self-evidently goes its own way, there can be no compromises.

Just like there can be no compromises for you – or indeed for the Porsche development team at Weissach. Every single one of them strives to get the best out of everything. The result: a very special vehicle which you can subsequently personalise with model-specific products provided by Porsche Tequipment. Products designed by the same Porsche engineers and designers who made your car.

As with the cars we create, all our after-market accessories undergo rigorous testing during their development. From design through to approval, we thoroughly scrutinise important properties, from safety to performance and from fitness for purpose to durability. After all, they are more than just accessories; they are part of a harmonious overall concept – your Porsche.

The same also applies to one of the highlights in our range: the 20-inch SportTechno wheels painted in GT Silver Metallic. The sizes of the wheels and tyres have been maximised so that they finish flush with the body of the car and give it an even more imposing appearance. As a mark of refinement, the spokes and rim have a highly polished surface finish. The wheel

centres with full-colour Porsche Crest are available with a GT Silver Metallic paint finish.

But how about if you want even more from your car – more performance, more style, more comfort, in short, more individuality? No problem. Whichever Tequipment products you ask your Porsche Centre to fit, your Porsche

will always be the masterpiece that the developers at Weissach envisaged it to be.

For peace of mind, you can rest assured that your original warranty will not be affected.

For more information about Porsche Tequipment, please contact your Porsche Centre or visit www.porsche.com.

A Cayman may not conform,
but it does live up to your expectations.

With the Cayman, it's all about performance
excellence. It's a concept that permeates
every aspect, from driving dynamics to
design, allowing you not only to explore
the physical limits of your car, corner
after corner, but the limits of your imagi-
nation too.

Why not use that imagination, for example,
to make a few changes to the Cayman's
appearance? You can make it even more
emotive and expressive. Or perhaps you'd
prefer to emphasise the dynamic, unmis-
takable and uncompromising character of
your Cayman? Whatever your preference,
the products from the Porsche Tequipment
range, including a selection of wheels and
model designations for the doors, will give
your car an incomparable presence.

In short, this is your opportunity to lend
the Cayman an even sportier character.
Namely your own.

Exterior

You get more than add-ons to your car's standard equipment.
You get more Porsche.

[1] Model designation on doors in black
With light-coloured exterior paintwork,
a black model designation on the doors
creates a striking contrast and heightens
your sense of anticipation as you step
inside.

Available as 'Cayman' and 'Cayman S'
logos.

[2] Model designation on doors in silver
The silver-coloured model designation
on the doors reinforces the very special
character of your Cayman.

Available as 'Cayman' and 'Cayman S'
logos.

Striking design and high performance.
What goes for your car goes for your wheels, too.

Can you imagine your Cayman equipped with one of the wheel and tyre sets from Porsche Tequipment? We can. They bring added individuality combined with a high level of agility, as well as safety.

In other words, they offer even greater driving pleasure. Keeping your feet on the ground need never be boring.

[1] 20-inch SportTechs wheels with summer tyres. Set of one-piece alloy wheels optimised for low weight thanks to flow-forming technology.

The 20-inch SportTechno wheels are characterised by their imposing design and size. Clearly defined lines mean that they are extremely easy to care for. With GT Silver Metallic paint finish and front surfaces with high-gloss polished finish.

[1] 20-inch Carrera S wheels with summer tyres. The design of the 20-inch Carrera S wheels is both dynamic and powerful – just like your Porsche.

[2] 20-inch Carrera S wheels in satin platinum with summer tyres. Your Porsche delivers excellent dynamic performance, and so do these wheels. The 20-inch Carrera S wheels with summer tyres and a paint finish in satin platinum emphasise the sporty character of your car and offer even more individuality. Includes wheel centres with full-colour Porsche Crest.

[3] 20-inch Carrera S wheels painted in black (high-gloss) with summer tyres. The centre spokes painted in black (high-gloss) give an imposing appearance. In combination with the summer tyres, the 20-inch Carrera S wheels appear even more powerful. Includes wheel centres with full-colour Porsche Crest.

[4] 20-inch Carrera Classic wheels with summer tyres. Elegant, highly polished 10-spoke wheels with a two-tone finish. The intricate spokes provide a clear view of the Porsche brake system.

[5] 18-inch Boxster wheels with winter tyres. These one-piece alloy wheels are not only the ideal match for your Porsche, they provide excellent cold-weather traction in conjunction with the winter tyres.

[6] 19-inch Boxster S wheels with winter tyres. The dual five-spoke design of these wheels will accentuate the sporty appearance of your Cayman, while the winter tyres offer improved traction in cold and wet conditions.

[7] 18-inch Cayman wheels with winter tyres. The minimalist dual-spoke design of these 18-inch alloy wheels accentuates the sporty credentials of the Cayman, establishing a firm link with performance – and with the road.

[8] 19-inch Cayman S wheels with winter tyres. The classic five-spoke design of these 19-inch wheels lends the character – and looks – of your sports car an extra dynamic edge.

Product	Cayman	Cayman S	Wheel dimensions (offset (ET) in mm)	Tyre specifications

For technicals, please refer to page 12.

Notes on the use of winter tyres
Summer tyres provide optimum performance at ambient temperatures above +7 °C. Below this point, the tyre compound begins to harden and braking distances are increased.

We therefore recommend that you fit winter tyres during the colder months of the year so that you can drive your Cayman safe in the knowledge that it will continue to meet our high standards for driving safety even at low temperatures.

All winter tyres approved by Porsche are identified by an 'M' designation on the sidewall. These tyres are beneficial because they have been optimised to produce less noise, rolling resistance is reduced for improved fuel economy, and, importantly,

braking distances are shorter at low temperatures below +3 °C.

† Compatible
- Not compatible
‡ If your vehicle documents do not contain details of the correct wheel and tyre combination, please request a technical approval certificate from your Porsche Centre. All tyres are designed exclusively for Porsche as indicated by the special Porsche designation (PQ, RQ, etc.) on the sidewall. Tyres that do not carry this designation are not recommended for use on your Porsche.

§ Winter tyres up to max. 240 km/h (149 mph)
* Not compatible with 5 mm wheel spacers
† Compatible with more than 4 mm spacers fitted
‡ Not compatible with more than 4 mm spacers - for winter tyres only
§ Optional use of 5 mm spacers on front and rear axles in winter track

Product	Cayman	Cayman S	Wheel dimensions (offset (ET) in mm)	Tyre specifications

---	---	---	---	---

[1] Snow chains

Specially designed for Porsche models and featuring ultra-fine links for minimal adhesion of ice and snow. Set of two for rear axle.

Not compatible with wheel spacers.

[2] Wheel centres

Set of four wheel centre caps with full-colour Porsche Crest. The perfect finishing touch for any Cayman wheels.

[3] Crested valve caps

Silver-coloured valve caps with embossed Porsche Crest. For vehicles with Type Pressure Monitoring (TPM)¹ (without fig.) and without Type Pressure Monitoring (TPM).

¹ Type Pressure Monitoring (TPM)

[4] Anti-theft wheel protection

Set of four wheel bolts for alloy wheels with a highly secure coding system (Thatcham).

[5] Wheel spacers

Wheel spacers create a wider track for enhanced stability and presence on the road. When fitted, your Cayman will look

even sportier, as the wheels run virtually flush with the body of the car. Package comprises a set of four spacers (5 mm), sixteen wheel bolts and four anti-theft wheel bolts in black.

Only in comparison with 18-inch wheel sets.

[6] Wheel bolts in black including anti-theft protection (not shown)

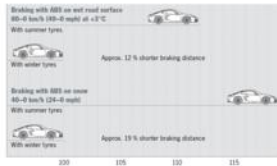

Set of black wheel bolts, comprising sixteen wheel bolts and four anti-theft wheel bolts. Two versions available: for vehicles with and vehicles without 5 mm spacers.

Fuel efficiency class, wet grip class, rolling noise class:

Tyre type	Size	Fuel efficiency/ rolling resistance	Wet grip class	External rolling noise ¹ class	External rolling noise (dB)
Summer tyres	235/45 2018	E	C	3-4	69-68
	265/45 2018	C	C-B	1	69
	235/40 2019	E	B-A	3-4	71-68
	265/40 2019	C	B-A	3	72-70
	235/35 2820	F-E	C-A	3	72.3-71
	265/35 2820	E	C-A	3B-B	73.9-72
Winter tyres	235/45 R18	E	C	3-4	72-69
	265/45 R18	F-E	C	3	73-71
	235/40 R19	F-E	C	3	71-70
	265/40 R19	E	C	3	71

For logistical and technical reasons related to the production process, we are unable to accept orders for a particular make of tyre.

¹ 1 = Quiet rolling noise 3 = Moderate rolling noise 5 = Loud rolling noise

How tyres influence braking performance:

*Customs? Never.
Apart from where performance and
sportiness are concerned.*

Right from first sight, it's clear where the new Cayman models want to be – out in front. Every line, every technical detail reflects the car's character and its irresistible urge to forge ahead. And yet, there is still plenty of scope left to enhance the appearance, performance and sound of your Cayman. It would be a shame to waste the opportunity.

Performance

carmanualsonline.info

Where sport ends for others, for you it's just beginning.

[1] Sports exhaust system (not shown)
The typical Cayman sound is powerful, resonant and sporty. Better still, it can be further enhanced thanks to the sports exhaust system featuring modified main silencers and a specially designed sports tailpipe. The system is activated by a separate switch integrated into the right half of the front control panel.

Some models may require additional components. (Please see fitting and conversion instructions.)

[2] Sports tailpipe
Specially designed twin tailpipe in chrome-plated stainless steel. Gives a sporty look to the rear of your Cayman.

[3] Fuel filler cap with Aluminium Look finish
This elegant accessory is a stylish addition inspired by our racing heritage. Modelled on filler caps from historic race vehicles, it has an engraved "PORSCHE" logo and securing tether.

[4] Pedals and footrest in aluminium
In a nod to our motor racing credentials, the pedals and footrest are made from solid aluminium. Their sand-blasted, anodised and nano-coated finish ensures they provide excellent grip whilst also enhancing the exceptional visual appeal of your Cayman.

After all, it's not just the outside that reflects the inner you.

The Cayman simply exudes dynamism. And not just on the outside. On the inside, the new, clearly structured interior architecture and the continuation of the car's exterior lines into the interior have helped create a taut, distinctive, purposeful look. The focus is clearly on what matters. And what matters are you and your own personal styling tastes.

Our range of interior equipment and packages includes a choice of exquisite materials such as mahogany, carbon, aluminium and Alcantara, enabling you to style your Cayman to your own exact requirements. After all, we don't focus solely on the exterior when we design our sports cars, so why should you?

Interior

You have highly developed senses for a reason.

[1] Leather

Leather is a traditional natural material – a true classic. Items made of leather are both timeless and hard-wearing.

[2] Mahogany¹

Mahogany is a dark, fine wood. Its fine grain gives it a very modern and elegant look.

¹ Since wood is a natural product, there may be variations in form and grain.

[3] Carbon

Carbon is a light but highly durable material which has its origins in motorsport. Its look is the ideal complement to the car's race-bred engineering.

[4] Brushed aluminium

Brushed aluminium sets clear accents and gives the interior a sporty minimalist appearance.

[5] Alcantara

This high-quality material is easy to care for, washable and has excellent non-slip properties.

[1] Mahogany interior package

This package comprises inlays in mahogany on the gear lever or PDK® gear selector and decorative strips in mahogany on the dashboard.

[2] Heated multifunction steering wheel in mahogany

The grain on the mahogany multifunction steering wheel is as unique as a fingerprint. Thanks to the integrated buttons, you have control over a number of audio and, where applicable, navigation and telephone functions at your fingertips.

[3] Centre console trim in mahogany

The centre console trim in mahogany gives your Cayman a personal and distinctively individual touch.

[4] Carbon interior package

This package comprises inlays in carbon on the gear lever or PDK® gear selector and decorative strips in carbon on the dashboard.

1/2 speed Porsche Doppelkupplung (PDK)

[5] Heated multifunction steering wheel in carbon

The multifunction steering wheel in carbon brings you closer to the racetrack. Thanks to the integrated buttons, you have control over a number of audio and, where applicable, navigation and telephone functions at your fingertips.

[6] Centre console trim in carbon

This trim is more than just a sporty detail; it adds a touch of motorsport.

1, 2

3

[1] Brushed aluminium interior package

This package comprises inlays in brushed aluminium on the gear lever or PDK[®] gear selector and decorative strips in brushed aluminium on the dashboard.

[2] Centre console trim in brushed aluminium

Every detail should be exactly as you imagined. This trim in brushed aluminium enhances the sporty feel of the interior.

[3] PDK[®] gear selector in aluminium

Specially designed PDK[®] gear selector in aluminium. The PDK[®] gear selector inlays feature leather trim in the interior colour.

[4] PDK[®] gear selector in Alcantara

This gear lever/PDK[®] gear selector highlights the close association of Porsche with motorsport. Finished in black Alcantara.

[5] SportDesign steering wheel

This steering wheel in leather adds a distinctly sporty accent and is yours to personalise thanks to our selection of leather colours. Two versions are available: one for the manual gearbox and one for the PDK[®]. The PDK[®] is equipped with gearshift paddles. The right-hand paddle shifts up, the left-hand paddle shifts down.

[6] SportDesign steering wheel in Alcantara

The Alcantara cover is easy to clean, hard-wearing and allows you to get a good grip on the steering wheel – properties that are not just appreciated in motorsport.

*** Topspeed Porsche Doppelkupplung (PDK)**

More than an accessory.
A little piece of Weissach.

[1] Storage compartment lid with Porsche Crest
The lid of the centre console storage compartment is finished in leather to match the interior trim and embossed with the Porsche Crest.

[2] Floor mats with nubuck edging
Made-to-measure floor mats with nubuck edging and 'PORSCHE' logo, which have waterproof underside and are non-slip. They are secured by a special fastener system.

[3] All-weather floor mats
Two attractive tailored floor mats. Non-slip and waterproof with perimeter ridges.

[4] Key pouch in leather
In smooth-finish leather with decorative stitching and embossed Porsche Crest. Includes the tether for the vehicle key.

[5] Vehicle key painted
A special kind of door opener – one that deserves a second look. Thanks to this set of four side mouldings with a painted finish, you can add a touch of the unconventional to your keys.

Door sill guards

Door sill guards are sure to attract admiring attention and provide a stylish and dramatic finishing touch. They are available in carbon or stainless steel and in illuminated and non-illuminated versions.

All door sill guards are available with both the 'Cayman' and 'Cayman S' model logos. On illuminated versions, the model logo is lit in white, providing an additional eye-catching detail.

[1] Door sill guards in carbon. A sporty and striking effect created by carbon fibre – an extremely lightweight high-tech material. With model logo.

[2] Door sill guards in carbon, illuminated. Door sill guards in carbon with white illuminated model logo place equal emphasis on sportiness and extravagance.

[3] Door sill guards in stainless steel. A brilliant highlight revealed the moment you open the door: door sill guards in stainless steel with model logo.

[4] Door sill guards in stainless steel, illuminated. Why not lead by shining example? These door sill guards with illuminated model logo are the way to do it.

**Passion for the sports car.
Communication technologies included.**

The Cayman is a unique character amongst sports cars. Powerful, with an absolute will to perform and a fervent passion for corners, the Cayman in short symbolises independence and freedom, embodies tradition and innovation, combines style and functionality and unifies performance with everyday practicality. It's what you expect from any Porsche and that's why it inspires pure passion for the sports car.

You feel it in the interior too. From the very first second. Everything is where you would expect it to be. That includes intelligent communication technologies which are designed to guide this superb athlete as safely and as directly as possible to its destination: the next corner.

Audio and communication

[1] Electronic logbook¹

The optional electronic logbook enables the automatic recording of mileage, route distance, date and time, starting point and destination as part of every journey.

Once you have downloaded the logbooks from the PCM via Bluetooth® or the USB interface, the data can be evaluated on your home PC using the software supplied.

[2] Telephone module¹

The optional quadband GSM telephone module offers convenience and excellent reception. By inserting a SIM card directly into the PCM's integral SIM card reader, calls can be made using either the hands-free facility or the optionally available

cordless handset. Alternatively, the Bluetooth® capability of a mobile phone can be used to make calls through the SIM Access Profile (SAP) or the Handsfree Profile (HFP)².

¹ Only in conjunction with PCM with navigation module.

² For information on compatible mobile phones, please contact your Porsche Centre or visit www.porsche.com.
